Android Development

JIRA

Développement d’applications mobiles

Jean Ronald MBOUMGNI

Android & Full-Stack Developer | Jetpack Compose · Next.js · Kotlin | Open to Remote

Communauté urbaine de Douala, Région du Littoral, Cameroun

Résumé

I build Android apps and web platforms that solve real business problems — clean architecture, modern stack, and code that scales.

Currently working as a Full-Stack Developer at Matanga Agency (present in 8 African countries, clients include Danone, Pizza Hut, Friesland) and as an Android Developer at Meloaude Inc., where I contributed to Rites — a fintech app on Google Play for mobile money transfers and bill payments.

What I work with:
→ Android: Kotlin, Jetpack Compose, MVVM, Clean Architecture, Hilt, Retrofit, ML Kit
→ Web: Next.js, React, TypeScript, Tailwind CSS
→ Backend: Spring Boot, REST API, Firebase
→ Tools: Git, GitLab, Jira, Android Studio

Based in Douala, Cameroon
Open to remote opportunities — Canada, Europe & worldwide
Available for freelance missions

Expérience
